

The Andrus Recorder

Vol. VIII No. 2

August 1972

PRESIDENT'S MESSAGE

Some efforts of this past summer haven't yielded any data for histories, but this past Sunday I spent a very fruitful day in Salt Lake City to arrange for pictures and additional material for one of the wife lines of Milo Andrus. This material will be made available in a late fall issue of the Recorder. Between now and that issue, the reunion will be held at St. George Utah. I do hope a large group of the family meet there and partake of the genial spirit of our family in Dixie. The last reunion of our family held at St. George was a delightful experience.

It's so important that we do something NOW to get work done on genealogical research, histories and temple data! Thanks for your many kindnesses to me.

Sincerely,
Thomas E. Andrus

CORRECTION

We have learned that the information which was given to us identifying the people in the bottom picture in the last Recorder (February, 1972) was in error in some points. Those seated were, from left to right: Mary Ann Terry Andrus, Frank Andrus, and Marlon Andrus, instead of as designated.

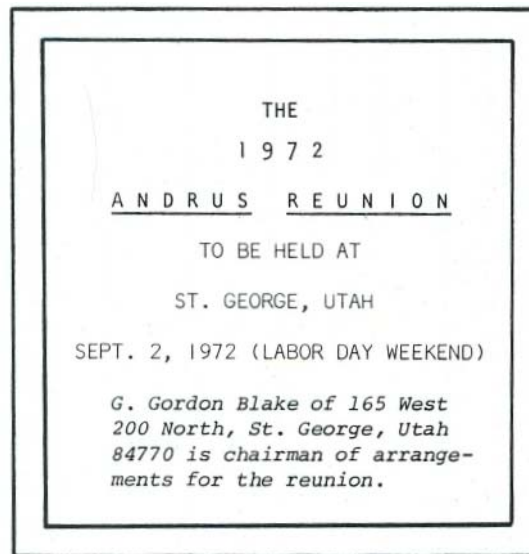

SPECIAL NOTICE

We have been featuring one of the wives of Milo Andrus in each issue of the Recorder. In this issue we should have featured Elizabeth Brooks (who had no children by Milo) and her daughter Ann Brooks, but we have not been able to find adequate biographical material and pictures of these two women. For this reason we are postponing featuring them, and publishing their corrected family group sheets, until next issue. Meantime it is imperative that we get copies of all available information of Elizabeth and Ann Brooks. Will those who have information of any kind on them please send it either to President Thomas E. Andrus (R#1, Box 211, Idaho Falls, Idaho 83401) or Hyrum L. Andrus (530 East 1980 North, Provo, Utah 84601). Please do not delay.

GENEALOGICAL SECTION

We are still continuing the work of authenticating the data pertaining to each of Milo's wives, and we will publish this information in the coming issues of the Recorder. Elizabeth Brooks and her daughter Ann Brooks will be featured in the next issue.

At the last reunion, the family gave consent to begin collecting and processing the names of all people in America bearing the Andrus name, from colonial times down to about 1860. Since then many names have been sent in. As of this writing, I have received clearance notices for 141 Andrus couples, and clearance for several other names sent in should be forthcoming in the near future. This means that there are now 141 Andrus couples (282 names) in the temple files ready to have their work done. Since we cannot presently show a

specific family relationship to these people, we cannot dictate to which temple or temples these names are sent. You may, therefore, want to inquire if there are Andrus (or Address, Andrews, etc.) names at the temple near you. If so, we will appreciate having these names done.

When we have gleaned all the married couples from existing records, we plan to start putting together their respective family group sheets and have the work done for their children.

We appreciate those family members who faithfully pay their family dues, as the two projects mentioned above are financed from that source.
